EDUCATION

MCA (Thapar Institute of Engineering & Technology)
BCA (Punjabi University)

July 2024 - May 2026
Sept 2021 - May 2024

TECHNICAL SKILLS

Programming Languages:	Java, Python, JavaScript
Backend Technologies:	Node.js, Express.js, Flask, JDBC, Servlets, Spring Framework, Spring Boot, Spring Security, Hibernate
API Development & Testing:	REST APIs, Postman, Hoppscotch
Databases:	MySQL, MongoDB, Firebase, PostgreSQL
DevOps & Tools:	Docker, Git, GitHub, Jenkins, Maven, Gradle

EXPERIENCE

Open Source Contributor	GirlScript Summer of Code (GSSoC) 2026
Project Admin	Social Summer Of Code(SSoC) 2026

PROJECTS

Spam Detection System | [GitHub](#) *ML, Python, Node.js, Reactjs, React Native, Axios*

- Built a system using React, React Native, and Flask to classify messages and emails as spam or non-spam. Integrated a Linear SVM model with TF-IDF vectorization and label encoding for accurate predictions. Demonstrated skills in full-stack development and ML model integration.

WanderLust | [GitHub](#) *Node.js, Express.js, MongoDB, Passport, Passport-local, Ejs Template, Leaflet.js,*

- A full-stack travel listings platform where users can explore destinations, list their own properties, and leave reviews.

Zerodha | [GitHub](#) *React, Nodejs, Express.js, MongoDB, JWT Authentication, Axios, React Router*

- StockGame is a Zerodha-inspired trading and investment simulation platform featuring a React-based frontend and a Node.js + Express backend. It includes an interactive dashboard for visualizing trades, portfolios, and profit/loss, enabling users to experience real-world trading workflows using simulated market data.

CERTIFICATIONS & COURSEWORK

- **Data Structures and Algorithms (Java)**
- **AWS Academy Cloud Foundations**
- **Introduction to Modern AI**
- **Introduction to Data Science AI**
- **Full Stack Web Development**

ACHIEVEMENTS

- Completed certified Data Structures and Algorithms with Java, strengthening algorithmic problem-solving skills.
- AWS Academy Graduate – Completed AWS Academy Cloud Foundations.
- Completed Cisco Introduction to Modern AI, covering machine learning and AI fundamentals.
- Participated in AI coding challenges, applying problem-solving and competitive programming skills.
- Organized by Unsaid Talks Education Participation certificate of GitHub Portfolio Analyzer and Enhancer Hackathon.
- Winner - ByteSize Ai Hackathon, organized by Unsaid Talks Education, for developing Ai based solution under competitive constraints.
